

an Archaeological Alphabet (continued)

by Sally Phillips

G is for GEOPHYSICS ..

This involves much expertise, exercise and waterproof clothing, & results in some pretty pictures...

H is for HENGE ...

Henges could be made of :-

wood -

- or stone -

- or plastic -

I is for ICE AGE ..

If you liked 'cold', this was great fun ...

J is for JORVIC .. (aka EBORACUM)

These were hard to spell

.. so it later became YORK

K is for KNAPPING

Mostly done with flints -

-(unless you remove the 'K'....)-

L is for LUMINESCENCE

Of great assistance when dating ...

to be continued ...
