

## **THE LAST PAGE...**

I hope you have enjoyed reading the Jubilee edition of Camertonia.

In closing I would like to thank the following people for helping to make this Journal so enjoyable to produce:

- Robert Stewart for the designing the excellent front cover
  
- Jodie Lewis, Jayne Lawes, Ken Appleby, Isla Tuck, Hugh Warren, Mary Huntley,  
-Pat Briley, Sue Langdon and Tessa Wilde for submitting articles
  
- Ian Givern for proof reading and his helpful suggestions on presentation.

### **For posterity...**

This Jubilee Camertonia was prepared on a Pentium II 450 MHz processor with Windows 98 and Microsoft Word software. The peripherals were a Umax Astra 1220p flatbed scanner and a Hewlett Packard 660 DeskJet Printer and grey hairs of the editor. The photographs were taken on SLR hand-held cameras, and developed as prints. I scanned the prints into the computer as black and white images and then inserted them into a text computer file. Anyone reading this in 50 years time may find such equipment or similar (except the grey hairs!) in a museum.

Alan Jenner.
